Overall Thoughts (Comic Art)

- “As an art teacher, I believe in the **healing qualities** of expression through **creativity** and this was a great exercise in a technique to uncover inner truth”
- “Helpful process for opening up how I want the **story** to go and how it can END.”
- “Would **love** to see this be a workshop offered at the center.”
- “Perhaps more **time** to create and share”

Overall Thoughts (Cannabis)

- “Terrific, **well understood**, literacy level great, wanted to ask questions, need more time.”
- “Excellent presentation !!! **Thank you.**”
- “Only critique is define acronyms CMRC.”

Overall Thoughts (Healthy & Fun Sex)

- “The panel was **diverse**. I really liked that. Very different.”
- “It was nice :) really made me **think** - great job guys!”
- “Liked the way Drew connected pleasurable sex to various hormones/ endorphins.
Moderators need to control overly talkative participants.”

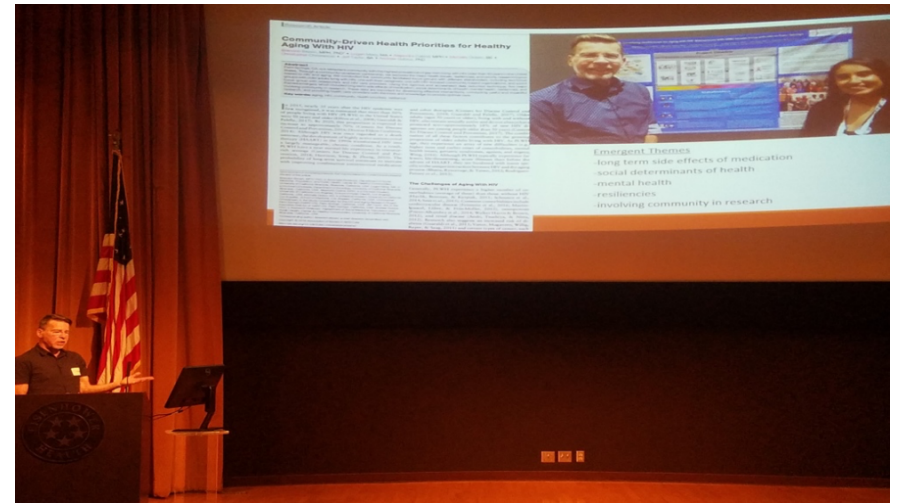

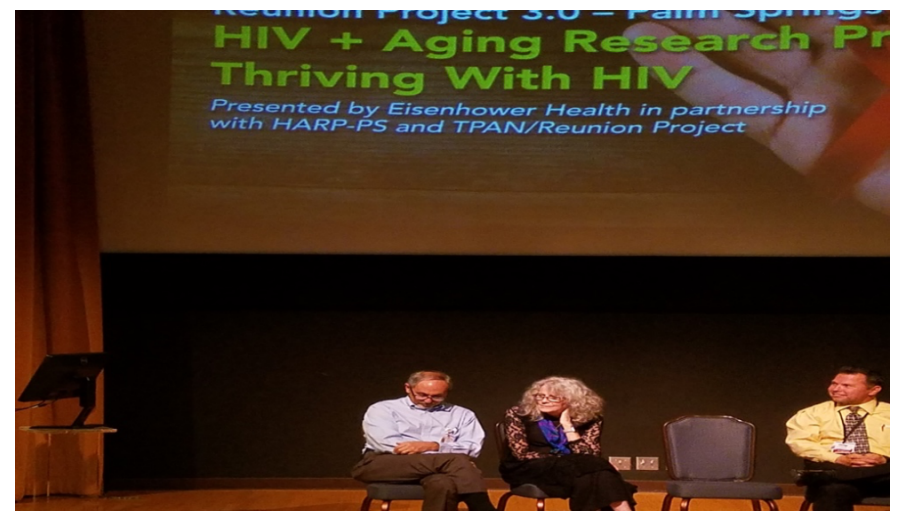

Overall Thoughts (Mindfulness & Coping w/ Stress)

- No time for questions or discussion made this session very stressful.
- I felt both speakers were in conflict with each other. Dr. Singh first interpretation and judgement I found Dr.Gover very judgemental.
- Zero time remained for questions so presenters need to work on staying to 20 min window.
- **Wonderful** information about stress and mindfulness - more more more!!!
- Excellent session!
- Loved loved **LOVED** it!!

Overall Thoughts (Keynote Speech)

- “Something told me that I needed to behave today, and now I know why. I’m going home and hug my dogs and friends - celebrate my 12 yrs clean from meth and remember what it felt like to hear your authenticity, vulnerability, and passion. I’m starting my life over at 60 and you were **beyond inspiring.**”
- “The laughter and the tears, wonderful.”
- “He could have left out the Rock Hudson and Elizabeth Taylor side stories.”
- “Your view on everything is just **beautiful.**”
- “Best keynote speaker! so inspiring! so entertaining! great.”

Suggestions for Improvement ?

- Define complex acronyms and words used in presentations so they are more understandable.
- Make sure to have enough time for questions and discussions from the audience in each presentation.
- To primarily stay on topic and stray away from side stories.
- To keep the audience from taking over the presentation
